How travel fees work

- **Once per visit,** not per person, so the whole family can be seen for one travel fee.
- **Multiple bookings:** the travel fee may be reduced or waived when several appointments are booked together, depending on your zone. Contact us for a quote.
- **Additional support:** if care needs an assistant or a second clinician, for example for medically complex patients, we'll confirm the total before you book.
- **No surprises:** once confirmed, your fee won't change because of traffic or roadworks.

Access to your home

- Wellington's hills mean some homes are harder to reach with our portable equipment. When you book, we'll ask about parking, steps and paths.
- **Difficult access** (for example, a long stairway or steep path) has a **$30** access fee to cover the extra time.
- **Where access isn't safe** for our team or equipment, we'll suggest another location nearby.
- If access on the day is very different from what was described, we may need to reschedule and the travel fee will still apply.

Book or ask for a quote

Tell us who the appointment is for and your address, and we'll confirm your total before booking.
